Cost-effective Design and Reverse Engineering Solution

Use the scan data from **eviXscan 3D** scanner in the **Geomagic Design X** software to perform 3D scan-to-CAD tasks.
This integrated package offers to the user an easy and fast way to obtain fully parametric and editable CAD models compatible with leading CAD programs.

It can be used by R&D teams, design teams in maintenance and manufacturing tasks all along the industry sectors like: automotive, powertrain, aerospace, defense, machine construction, heavy industries: molding, casting and many others.

Offer valid till 30 June 2019

Dx Geomagic® Design X™

EVIXSCAN 3D

Heavy Duty Quadro SET

Versatile 3D scanning in harsh environment.
Aluminium body and carbon fiber beam on **Heavy Duty Quadro**
guarantees precise measurements in harsh environment.
Two ranges enable to scan objects of different dimensions:
from a few centimeters to several meters.

Heavy Duty Optima SET

High-precison 3D scanning of small and medium size objects.
Heavy body construction enables scanning in variable
environment. High point density is helpful for scanning of small,
medium and detailed objects.

EVIXSCAN 3D
Suite 2.0

eviXscan 3D Suite 2.0 is a comprehensive
software platform that delivers the most
powerful and user-friendly tools for scanning
and mesh processing within straightforward
workflow.

EVIXSCAN 3D
Rotary Table

Rotary tables ensure the integration
with **eviXscan 3D** scanning systems
and allows to capture the data from many
perspectives.

EVIXSCAN 3D
ToolKit Box

Positioning system for 3D scanning.

EVIXSCAN 3D
Blue Light Filters
With blue light filters, precise measurements
can be taken independently of ambient
light conditions (filtering ratio over 95%).

Dx Geomagic® Design X™

Geomagic Design X is a advanced software
for reverse engineering. It combines 3D
modelling functions like in CAD software
with data processing obtained from the
scanning process. Based on data from the
eviXscan 3D scanner user can create fully
parametric and editable models in a format
compatible with used CAD software.

Save 20% comparing to the price of separate products.
